- Non-dulling to floor finishes
- One step cleaner/disinfectant
- Deodorizer
- Do not use as food contact sanitizer
- Meets OSHA bloodborne pathogen standard for HIV, HBV, HCV
- EPA registered

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Before using this product, food products and packaging materials must be removed from the room or carefully protected. Do not use this product to clean, sanitize, or disinfect utensils, glassware, dishes, or interior surfaces of appliances.

General Disinfection: Add 4 ounces of this product to 1 gallon of water (660 ppm active) (or equivalent use dilution). For heavily soiled areas, a preliminary cleaning is required. Apply use solution to hard non-porous surfaces with a brush, cloth, mop, sponge, auto scrubber, mechanical spray device, or by immersion so as to thoroughly wet surfaces. For sprayer applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, mop, or sponge. Treated surfaces must remain wet for 10 minutes. Rinse or allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished. Rinse all treated surfaces that come in contact with food such as countertops, appliances, tables, and stovetops with potable water before reuse. Change cloth, sponge, towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when solution becomes visibly dirty.

General Cleaner/Deodorizer: Apply ½-1 ounce of use solution to surfaces. Wipe up excess liquid and allow to air dry. For heavy-duty use, apply 2 ounces of use solution to clean surfaces.

Hospital Use Disinfectant: This product is a Hospital Use Disinfectant at 4 ounces of this product per 1 gallon of water (or equivalent use dilution) modified in the presence of 400 ppm hard water.

*The above directions were excerpted from the product label. Complete directions are listed on the product label and should be read and understood prior to use.
