

Silver Soak

Flatware Pre Soak

Dishwashing

Description

Silver Soak is a flatware presoak and detarnisher for stainless and silver flatware. This product will loosen cooked on or dried food soils to allow for easy removal in dish machine which will reduce the need to rewash utensils. Silver Soak will also break down starch and protein from all flatware and will remove tarnish from silver ware.

Features & Benefits

- Highly concentrated
- Works in hard or soft water
- Rinses freely
- Low foaming
- Biodegradable

Directions for Use

1. Dilute ½-1 ounces of Silver Soak per gallon of hot water in bus tub.
2. Place soiled flatware in bus tub and allow to soak for at least 10 minutes.
3. Put flatware in flatware rack and cycle through dishmachine.

For Silverware:
Line bus tub with clean aluminum foil to aid in detarnishing.

Do not overload flatware rack for best results.
